

SHUBHAM KAKHEKAR

Full Stack Developer | Pune, India

+91 9371650650 • kakhekarshubham@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience designing, developing, and maintaining scalable, reliable backend systems and APIs. Proficient in Java 17 and Spring Boot, with deep expertise in RESTful API design, microservices architecture and database optimization (PostgreSQL). Experienced across the full SDLC in Agile environments, with a track record of improving system performance by 20–30% and delivering high-quality releases. Familiar with cloud-native deployment principles and AWS/GCP fundamentals. Working knowledge of Angular for frontend collaboration and integration. Skilled at leveraging GenAI tools (GitHub Copilot) for accelerated development, debugging, and reverse engineering. Strong problem-solver with a continuous learning mindset and the ability to work independently and collaboratively.

TECHNICAL SKILLS

Languages:	Java 17, JavaScript, TypeScript
Backend:	Spring Boot, Microservices, REST APIs, Apache Kafka, WebSockets, JPA/Hibernate
Frontend:	Angular, React, RxJS, HTML5, SCSS, Angular Material, PrimeNG, Bootstrap
Databases:	PostgreSQL, MySQL, Query Optimization (SQL/NoSQL awareness)
DevOps/Tools:	Git, GitHub, CI/CD, GitHub Actions, Docker, Containerization
Practices:	Agile/Scrum, SDLC, Code Reviews
AI Tools:	GitHub Copilot (GenAI), Prompt Engineering

EXPERIENCE

Full Stack Developer (System Engineer) | Tata Consultancy Services Pune, India • Feb 2024 – Present

- Designed, developed, and maintained scalable healthcare supply-chain applications using Angular and Spring Boot, improving overall system efficiency by 20–30%.
- Built and integrated RESTful APIs and microservices to support a platform handling real-time tracking of 1,000+ orders/day, ensuring high availability and reliability.
- Implemented WebSocket for real-time alerts, enabling asynchronous, distributed data processing.
- Optimized PostgreSQL database queries and data access patterns, significantly improving response times and application performance.
- Collaborated with product managers, architects, and cross-functional teams in Agile ceremonies (sprint planning, stand-ups, retrospectives), improving feature delivery speed by 20%.
- Participated in code reviews to enforce clean, maintainable code standards and architectural consistency.
- Debugged and resolved application issues across development and production environments; contributed to architecture and design discussions for technical improvements.
- Leveraged GitHub Copilot (GenAI) to accelerate development, assist debugging, and reverse engineer legacy systems.

Full Stack Developer Intern | Compserv Systems Kolhapur, India • Jan 2023 – Jun 2023

- Developed and maintained internal tools using PHP and MySQL, reducing manual tracking effort by 30–40%.
- Enhanced system usability through frontend improvements and streamlined client request workflows.
- Gained foundational SDLC experience across design, build, test, and deployment phases.

KEY PROJECTS

Nuclear Pharma Healthcare Platform

- Developed a scalable, production-grade healthcare supply-chain management system using Angular and Spring Boot, supporting high-throughput real-time order tracking.
- Implemented Kafka-based event-driven architecture for reliable, distributed data processing across services.
- Built reactive UI with RxJS, improving user experience and eliminating redundant API calls.

- Optimized database query performance and scalability to meet production SLA requirements.

TaxWing – Tax Consultancy Platform

- Designed and delivered a full-stack application (currently in production) for managing client records, authentication, and workflows using Angular and Spring Boot.
- Implemented responsive UI and secure authentication, demonstrating end-to-end product ownership.

Task Tracker Application

- Built a role-based task management system to streamline client query tracking and improve team collaboration.

EDUCATION

B.Tech in Information Technology

Aug 2019 – Jun 2023

Rajarambapu Institute of Technology, Sangli, Maharashtra
